United Nations Day 2023 Celebrating the 78th Anniversary of the UN October 24, 2023

The United Nations (UN) was founded in 1945 and the anniversary of the day on which the UN Charter came into force is observed each year on October 24.

The United Nations promotes peace and security, development, democracy, economic prosperity, global health and human rights around the world, and is vital now more than ever.

The United Nations works to achieve the Sustainable Development Goals by providing a common development strategy for the international community, improving coordination, coherence, and effectiveness within the UN system, the donor community and developing countries.

The United States has a long tradition of leading international efforts to improve health, education and economic growth in developing countries; and has shown its commitment to the Sustainable Development Goals through foreign assistance, progressive trade initiatives, and debt relief measures.

The United Nations Association of the USA has declared "Equality, Freedom and Justice for All" as its theme for the 2023 United Nations Day commemoration, which aims to celebrate the 75th Anniversary of the Universal Declaration of Human Rights, the first universally protected fundamental human rights document.

The Boulder County Chapter of the UNA-USA is committed to educating and mobilizing our local communities to build a stronger network of global citizens and leaders to create a more prosperous, just and sustainable world.

We, the City Council of the City of Boulder, Colorado, declare October 24 as

UNITED NATIONS DAY

And encourage community members of the City of Boulder to participate in all activities related to $UN\ Day.$

City OF BOULDE

Aaron Brockett, Mayor
